THE
FARMER'S ALMANACK,
FOR THE YEAR OF OUR LORD

1826;

Being the second after Bissextile or Leap Year,
CALCULATED FOR THE MERIDIAN OF HALIFAX IN N. S.
But will serve for any part of the Province.

Containing, besides the large number of Astronomical Calculations and the
Farmer's Calendar for every month in the year a great
variety of useful and entertaining matter.

“ ————— Behold, fond man !
See here thy life ; pass some few years,
Thy flowering Spring, thy Summer's ardent strength
Thy sober Autumn fading into age,
And pale concluding Winter comes at last,
And shuts the scene. ————— ”

HALIFAX :

Printed for and Sold by C. H. BELCHER, and at the FREE PRESS Office.

Directions for coming up Halifax Harbour, taken from the printed Directions in the Custom House at Halifax.

SAMBRO island and light House is in latitude 44 deg. 30 min. N, and longitude 63 deg. 32 min. W.

From the westward, bring the light to bear N. E. if it bears more easterly, stretch to the southward till it bears N. E. and as much northerly as you please, there being no shoal or ledge to the southward; then keep it open on your larboard bow; give it more than a mile and a half birth as much more as you please.

Note—The western ledges lie from the light S. W. distant two miles, the other W S W about one league; the eastern ledges lie in a range nearly, some above water, the outermost one mile and a half from the light bearing from it E. N. E.

When the light bears north distant about 2 miles, run N E 4 miles, then north will carry you to Chedabucto Head at a proper distance clear of all danger,

When a breast of Chedabucto Head, run N $\frac{1}{2}$ W for the south point of George's Island.

When within half a mile of George's island you may enter the harbour west of it in 18 fathoms, or east of it in 15.

In passing between Sandwich point and Meagher's beach run nearest the point to shun a shoal which runs off S W from the beach.

There is also a shoal lying one mile south of Sandwich point. Coming from the eastward, run for the light and you cannot fail seeing Chedabucto Head as you open Halifax Harbour; the light being 4 miles distant from the Head to the S W.

Assumption—A festival observed by the Romish Church in honor of the miraculous ascent of the Virgin Mary's body and soul into heaven.

All Saints—A festival observed Nov. 1st, in commemoration of all the faithful deceased.

Advent Sunday—They are in number four, the first of which if it fall not on St Andrews day, Nov. 30th, is the next Sunday after it. It signifies the approach or coming on of the feast of the nativity.

Dr. Adam Clarke has lately communicated to the public some meteorological observations, in which he remarks : " From my earliest childhood I was bred upon a little farm, and as I found that much of our success depended on a proper knowledge and management of the weather, I was led to study it ever since I was 8 years of age." In this science he states that he has attained extraordinary success as the result of which he advocates the weather table attributed to Dr. Herschel, but which the son of that gentleman has recently disclaimed on the part of his late father. Dr. Clarke says that the accuracy of this table is truly amazing : and that if Dr. Herschel had lived for no other purpose than to construct it, posterity would have reason to bless his memory.

The following is the Table as arranged by Dr. Clarke.

Moon.	Time of Change.	In Summer.	In Winter.
If the New Moon, the First Quarter, the Full Moon, or the last Quarter happens.	Between midnight & two in the morn. }	Fair	Hard frost, unless the wind be S or W
	2 & 4 morn. }	Cold with frequent showers	Snow and Stormy
	4 & 6 }	Rain	Rain
	6 & 8 }	Wind and Rain	Stormy
	8 & 10 }	Changeable	Cold, Rain if wind W Snow if E.
	10 & 12 }	Frequent Showers	Cold and high wind
	At 12 o'clock at noon and 2 P M }	Very rainy	Snow or Rain
	Between 2 & 4 P M }	Changeable	Fair and mild
	4 & 6 }	Fair	Fair
	6 & 8 }	Fair if wind N W }	Fair and Frosty if wind N or N E }
		Rainy if S or S W. }	Rain or Snow if S or S W }
	8 & 10 }	Ditto	Ditto
	10 & midnight }	Fair	Fair and Frosty

In general, the nearer the time of the Moon's Change, First Quarter Full, and Last Quarter is to Midnight, the fairer will the weather be during the seven days following : and the nearer to Midday, or Noon, these phases of the moon happen, the more foul or wet the weather may be expected to be during the next seven days.

A very pious man in the Country who was particularly punctual in his devotions, used to call his workmen to attend morning prayers by candle light. At a certain time when returning thanks for being brought to see the light of another day, "Not so fast Sir," interrupted Uncle Joe, "you are not sure of that yet."

MAY begins on Monday.

Spring.

Early Rising.—The difference between rising at six and rising at eight, in the course of forty years supposing a person goes to bed always at the same hour, amounts to 29,000 hours; or three years, 121 days, and 15 hours; which will afford eight hours a day for exactly ten years; which is in fact, the same as if ten years were added to the period of our lives, in which we might command eight hours every day for the cultivation of our minds and the dispatch of our business.

JUNE, 30 Days.

1826.

Many people who read the Scriptures with attention, seem to be more anxious to know who Melchisedec was, or what was Paul's thorn in the flesh, than to know what they must do to be saved.

"Fine growing weather this" (said a Cumberland farmer, to his next neighbour, accosting him as he was crossing his meadows) "fine growing weather: this rain will bring every thing out of the ground." "Heaven forbid!" said the other "for I have just buried my wife."

In a certain small town, as the clergyman was holding forth in his usual drowsy manner, one of the deacons, probably influenced, by the narcotic qualities of the discourse, fell into a doze. The preacher happening to use these words. What is the price of all these earthly pleasures? the good deacon who kept a small store, thinking in his drowsy state, the inquiry related to some kind of merchandize, immediately answered, seven and six pence a dozen.

Rearing Calves without milk.

To the Agricultural Board of Trustees.—(England)

I lay before you the following method of rearing cattle without milk. In two or three days after they have calved, I take the calves from the cows, and put them into a house by themselves; I then give them a kind of water gruel, composed of barley about one third and two-thirds of oats, ground together very fine; I then sift the mixture

By this method I have reared between fifty and sixty calves within these four years; forty of which I have now in my possession, having sold off the others, as they became of a proper age; and by the same method calves may be reared with a trifle of expence.

1826. DECEMBER, begins on Friday. Winter.

All have perished and thou art fled, to add
 Unto a past eternity — that sea
 Which swallows in its deep devouring gorge,
 Days, months, and years; and ravest still for food.
 Farewell departed year! we too, lie thee,
 Shall die, and mingle with eternity.
 Eternity! — It is our only home.

JUSTICES LAW,

The following information, and forms may not be unacceptable to some of our friends who have not the necessary books to refer to.

Burn's Justice. } In all legal proceedings, the person complained of
5 vol p 231 } ought to have notice of the charge laid against him
and to have an opportunity of being heard in his own defence; consequently where a person is accused before the Justices they ought to summon the party to appear or issue their warrant to bring him before them. The manner of conveying the parties is sometimes directed by the acts of Parliament creating the respective officers, which therefore ought to be pursued accordingly.—In other cases, where it is left discretionary in the Justices, it seemeth most agreeable to the mildness of our laws to put the party to no more inconvenience than needs must, and therefore where the case will bear it a summons seems more apposite than a compulsory process. But in case of sureties of the peace, petty larcenies and other felonies, and generally where the king is party, and also in cases between party and party, where the body of the offender is liable, a warrant is the regular process and not a summons.

In the summons it is usual, and upon many accounts convenient to fix not only a day but a particular time of the day for the appearance of the party: but if he shall appear at the time, and the Justice shall not attend, he is not to go away, but must wait during the remaining part of the day, for many things may happen to hinder the Justices immediate attendance.

If a Magistrate abuses the authority reposed in him by the Law in order to gratify his malice or promote his private interest or ambition, he may be punished also criminally, by indictment or information: and any malicious or tyrannical abuse of their office is usually severely punished, and all persons who recover a verdict against a Justice for any wilful or malicious injury are entitled to double costs:—But if a Justice acts honestly and candidly, without any bad view or ill intention whatsoever, altho he should act illegally the Court will never punish him by the extraordinary mode of an information, but will leave the party complaining to the ordinary method of prosecution by action or indictment.

was laid by the heels for sitting in judgment in a cause where he himself was senior of the Plaintiff in ejectment, tho he by the charter was sole judge of the Court.

B. Justice 22d edit 3 vol p 159. In the case of *Rex vs Tarpole*, it was determined that on an appeal to the sessions against an order of removal those Justices who are rated to the relief of the poor in either of the contending Parishes have not a right to vote, and by the court (in another case) no rule of Law or reason is more established than that a Judge ought to stand disinterested. p 160. Where two Justices are required to do any judicial act they ought to be together. In summoning convictions the party ought to be heard and for that purpose ought to be summoned in fact; and if the Justice proceed against a person without summoning him, it would be a misdemeanour in him, for which an information would lie. In *Rex vs. Harwood* the defendant being a Justice of the Peace was convicted on an information, for a conviction by him made of an alehouse keeper, who was never summoned or heard.

* Notwithstanding this general position it has been held that an inn-keeper may detain a guest's horse, until satisfaction be made for charges; and that any person may retake his own goods, if illegally dispossessed of them.

Board of Land Commissioners.

His Excellency Sir James Kempt in the year 1821 established the Boards of Land Commissioness in each County for the purpose of facilitating the settlement of emigrants and other poor persons on the Crown Lands in this Province with the least possible trouble and expence. By His Excellency's instructions the Commissioners are directed to appoint a secretary and fix upon a place of meeting; to meet one day at least in every month, and to give written notice thereof in the County or District, as also that they are ready to receive petitions from all persons desirous of obtaining land within the limits of their commission;—such petitions must be addressed to the Lieutenant Governor and must contain a particular description of the land applied for:—in addition also to the usual declarations made in petitions, every petitioner must make oath that he has no knowledge of any person being located on the land applied for or having any claim thereto: these petitions are to be taken into consideration at the general meeting, and the commissioners are authorised (if upon a careful inquiry into their character and circumstances they shall consider them as likely to make good settlers and faithful subjects of his Majesty) to grant tickets of Location according to the following scale

To unmarried men, 100 acres.—To married men, 200 acres, but not to exceed 200 acres without special authority from his Excellency the Lieutenant Governor.—The Commissioners must be satisfied before they grant tickets of Location

vernment and that he does not possess any by purchase or otherwise. Persons
receiving Tickets must proceed immediately to cultivate the land allotted to
them; otherwise they will not be confirmed in the possession by Grant, and
which they will not receive until they are fully settled and have erected house-
thereon. Tickets are merely an authority to settle on lands and are only good
for 12 months; to make the taking out of Grants as easy as possible, five per-
sons or any smaller number may be included in one grant. Real settlers are to
be encouraged and every possible protection and facility afforded to them by the
commissioners, but Land-Jobbers of every kind are to be discouraged, persons
obtaining possession of lands by land-jobbing will not be confirmed by grant.

A plan of each County and District has been transmitted to the Commission-
ers by His Excellency, which must always be kept in the same place as well
for the use of the public as the Board of Commissioners, and the Commissioners
are directed to cause it to be made publicly known where the said plan is de-
posited.

Only one Deputy Surveyor is allowed for each county and district, who is
directed to act under the orders of the Board of Commissioners agreeably to
their instructions; such deputy surveyor may employ as occasion requires com-
petent assistants for whose acts he is to be responsible.

Subsequent instructions direct that no person shall be entitled to receive a
Ticket of Location from the commissioners, who shall have resided more than
six months in the Province, and the Commissioners are expressly prohibited
from granting any Ticket of Location to any person who shall have resided
a longer period therein.

Therefore natives of this Province and Persons who have resided more than
six months therein must forward their Petitions for Land thro the Board of Com-
missioners, to His Excellency the Lieutenant Governor who will determine
thereon and direct warrants of survey to be granted to them for such quantity of
land as he shall think fit.
